2.4. Individual / Group Assignments

Throughout the academic year, students will have to carry out a certain number of directed activities whose content is related to the subject of macroeconomics.

These guided activities have been designed so that the student acquires the following skills:

- To understand macroeconomic concepts
- To learn how to work, in a simple way, with an economic database (Fred, OECD, Eurostat, IMF) using statistical programs such as Excel or similar.
- To learn how to interpret the economic report published by national authorities or by international organization (such as EU, IMF, OECD).

It is at the teacher's discretion to evaluate an activity that is submitted after its deadline, or in case a student wants to submit them again in order to improve his/her score earned on the ordinary call.
